Our History

We started out with a small group of dedicated people who all wanted to see the company succeed and develop. Our first brand project was completed within a month of incorporation because to their drive. This accomplishment paved the way for future possibilities and opened up a world of prospects.

Amazing year! Our team has accomplished a lot in a short period, reaching 200 project milestones and hiring several individuals from different places. We've streamlined our processes to operate faster.

As tech experts and thinking leaders, we're excited! Our robust and powerful community of tech aficionados who are passionate about what they do has developed a culture that will ensure sustained growth and success.

IPH Technologies had a great year. We moved into a new office to suit our growing crew after 150%year-over-year growth. With 200+ people and three additional branches, we've grown globally.

We're proud of our recent initiatives for varied clients. It's fantastic to hear that our staff exceeded these clients' expectations with high-quality services and solutions.

Our organization has had a great few years under Lekha Mishra's leadership. Our company grew rapidly under her leadership. Multiple research and review firms have named us a top software company.
