Frequently Asked Questions (FAQ)

1. What are the main terminals at Minneapolis-Saint Paul International Airport?

Minneapolis-Saint Paul International Airport has two main terminals:

Terminal 1 (Lindbergh): This is the larger of the two terminals, serving most domestic and international airlines. It has seven concourses (A-G) with a total of 117 gates.

Terminal 2 (Humphrey): This terminal is smaller and primarily serves Delta Air Lines. It has one concourse (H) with 14 gates.

The two terminals are connected by a light rail transit system that runs 24 hours a day, making it easy to transfer between the terminals.

2. Are there any unique amenities or services available for travelers at the airport?

Yes, Minneapolis-Saint Paul International Airport offers several unique amenities and services for travelers:

- **Art Program:** The airport has a renowned public art program, featuring over 200 pieces of art throughout the terminals. This includes sculptures, paintings, and installations by both local and international artists.
 - **Skyway:** The airport is connected to the Mall of America by a skyway, which is a climate-controlled walkway that allows travelers to shop and dine without ever leaving the airport.
 - **Sensory Room:** The airport has a sensory room designed to provide a calm and stimulating environment for travelers with sensory sensitivities. The room features soft lighting, calming sounds, and a variety of tactile experiences.
-

- **Pets Welcome Program:** The airport has a Pets Welcome Program that allows travelers to bring their pets into the terminal and even board the plane with them in the cabin, under certain conditions.
- **Meditation Room:** The airport offers a meditation room where travelers can relax and unwind before or after their flight.
- **Free Wi-Fi:** The airport provides free Wi-Fi throughout the terminals.
- **Charging Stations:** There are plenty of charging stations available throughout the airport for travelers to recharge their electronic devices.
- **Food and Beverage Options:** The airport offers a wide variety of food and beverage options, including local favorites, national chains, and international cuisine.

These are just a few of the unique amenities and services available at Minneapolis-Saint Paul International Airport.

3. How does Minneapolis-Saint Paul International Airport prioritize sustainability and environmental initiatives?

Minneapolis-Saint Paul International Airport has a strong commitment to sustainability and environmental initiatives. Here are some of the ways they prioritize these efforts:

Energy Efficiency:

- **LED Lighting:** The airport has replaced all of its lighting with energy-efficient LED fixtures, reducing energy consumption and greenhouse gas emissions.
- **Solar Power:** The airport has installed solar panels on several buildings, generating renewable energy and reducing its reliance on fossil fuels.
- **Building Automation Systems:** The airport uses building automation systems to optimize energy consumption and reduce waste.

Waste Reduction:

- **Recycling and Composting:** The airport has implemented a comprehensive recycling and composting program to divert waste from landfills.
- **Food Waste Reduction:** The airport works with its food vendors to reduce food waste through programs like food donation and composting.
- **Sustainable Procurement:** The airport prioritizes purchasing sustainable products and services, reducing its environmental footprint.

Water Conservation:

- **Water-Efficient Fixtures:** The airport has installed water-efficient fixtures throughout its facilities, reducing water consumption.
- **Rainwater Harvesting:** The airport has implemented rainwater harvesting systems to capture and reuse rainwater for landscaping and other purposes.
- **Water Quality Monitoring:** The airport monitors water quality to ensure that it meets environmental standards.

Transportation:

- **Public Transportation:** The airport promotes public transportation use through partnerships with local transit agencies and providing convenient access to bus and rail services.

- **Ground Transportation:** The airport encourages the use of ground transportation options that have lower environmental impacts, such as electric vehicles and hybrid vehicles.
- **Airport Operations:** The airport continuously works to improve its operations to reduce noise pollution and emissions.

Community Engagement:

- **Environmental Education:** The airport partners with local schools and organizations to educate the community about environmental issues and sustainability.
- **Sustainable Initiatives:** The airport supports local sustainability initiatives and programs.

By prioritizing sustainability and environmental initiatives, Minneapolis-Saint Paul International Airport is demonstrating its commitment to protecting the environment and creating a more sustainable future for the community.

4. What transportation options are available for travelers to access and depart from the airport?

Minneapolis-Saint Paul International Airport offers a variety of transportation options for travelers to access and depart from the airport:

Public Transportation:

- **Light Rail Transit (LRT):** The Blue Line of the Metro Transit LRT system connects the airport to downtown Minneapolis and other parts of the city. The LRT station is located in Terminal 1.
- **Bus Service:** Several bus routes serve the airport, including the 60, 84, and 94 routes. Bus stops are located outside of both terminals.

Ground Transportation:

- **Taxi:** Taxis are available at both terminals.
- **Ride-Sharing Services:** Popular ride-sharing services like Uber and Lyft are available at the airport.
- **Rental Cars:** Several major rental car companies operate at the airport, with rental car facilities located off-site from the terminals.

Parking:

- **Short-Term Parking:** There are several short-term parking garages and lots located near the terminals.
- **Long-Term Parking:** For longer stays, there are several long-term parking options available, including economy parking lots.
- **Valet Parking:** Valet parking is available at both terminals.

Shuttle Service:

- **Airport Shuttle:** There are several private shuttle services that operate between the airport and hotels in the area.

The best transportation option for you will depend on your destination, budget, and travel preferences. It is recommended to research the transportation options available to you before your trip and plan your transportation accordingly.
