Enjoy the Arctic landscape - Experience the Northern Lapland
Wilderness Hotels is a family-owned company with five exquisite resorts in Northern Lapland. Our hotels are in nature´s most beautiful places: by lakes and rivers, away from light pollution and busy city life.

Witness nature phenomena

No matter when you are staying in Lapland, there is always something amazing going on in our nature. The most known phenomena are Northern Lights. They appear to the sky in autumn and can be seen until the early spring. In winter you can also experience the most magical polar nights, when the sun doesn't rise above the horizon at all. In the end of January we start to get more and more sunlight to our days until the sun doesn't set at all. In summertime you can enjoy the sun even in the middle of the night. In autumn the nature starts preparing itself for the winter. Then you can experience the glory of autumn colors, when everything turns red, yellow, orange and purple.
